1. CSCCA has finished upgrading software and hardware systems for ten computers. At the same time, all systems in our computer center have been integrated on network to share the common printer and have synchronized the teaching system to improve the teaching environment.

The goals of these improvements are to help Chinese students to operate and recognize Chinese letters, as well as to use valued sources from World Wide Web and teaching on line.

The speed of system replacement depends on donated fund. As of today, four donators have contributed for four systems. We still need your support for the rest six computer systems. Each of them costs \$350.00. If you are interest in donating those equipments, please contact secretary Yuan at 954- 753-4788, thanks for your contribution.
